

We keep moving: **D-Bookshelf**

We proudly present our newest software: our own e-Reader **D-Bookshelf** for all digital nautical publications of various number of publishers. **D-Bookshelf** provides a full digital technical library for maritime use and provides all of the books needed on board in a fast, easy to use, digital format.

It eliminates the associated costs and administration of maintaining a paper library as all the data is on the vessel at all times and the entire library is updated easily with just one click of a button. You don't even need to be online to update the digital library. In the event of a vessel inspection, **D-Bookshelf** makes it easy and ensures compliance by having all mandatory publications on board.

The advantages

- Complete compliance, always the latest edition on board
- One platform for several publishers of e-books
- The Netherlands Merchant Shipping Legislation can be included and is more user-friendly than ever
- You do not have to pay for IMO-unlocks anymore and that saves you a lot of unnecessary costs
- Efficiency boost & cost reduction: less physical handling on board and at the office

Other publishers that will appear in **D-Bookshelf** in due course

BIMCO, Brown, Son & Ferguson, Canadian Coast Guard, Dansk Standard, Dokmar Maritime Publishers, ICS, ILO, IMO, Imray Laurie Norie & Wilson, Intertanko, ITU, Met Office, NOAA, NTNU, OCIMF, SDU, Shipping Guides Ltd, The Nautical Institute, TSO, US Department of Transportation, Weilbach, WHO
