

Automatic Supply

One of our most appreciated services is the Automatic Supply (AS) service. The AS ensures that your vessels are always equipped with an up-to-date set of charts & publications tailored in the outfit which meets your specific requirements.

Regular AS

For our regular AS there are no subscription fees, because all orders are supplied at one address. You only pay for the charts & publications that are actually supplied. This way you are in total control of your fleet! Your outfit management is linked to our customer portal DatemaDirect.nl which allows you and us to monitor the vessels outfits. This way the vessels always remain in full compliance, without having to worry about it themselves!

AS On Demand

AS On Demand gives you even more freedom. When you subscribe to this service, we will first contact you or the vessels for the most up to date delivery addresses per AS. We will then send all items to that address, so that there is no intervention what so ever. Per address we charge a dispatch fee of € 12.50. And again: your outfit management is linked to our customer portal DatemaDirect.nl which allows you and us to monitor the vessels outfits.

We offer three types of AS On Demand, there is always a type that will meet your wishes:

- **Classic**
Monthly supply of nautical publications and chart updates
- **Modern**
As the Classic version with the delivery of the update CDs.
- **Future**
As the Modern version and (for example) the yearly supply of medicins in Europe.

In support we issue a monthly digital newsletter informing the owners on upcoming and cancelled charts & publications. **If you are interested in our Automatic Supply and you need advice on which service suits you best, please do not hesitate to contact us at digital@datema.nl.**
